

# Thailand Bible School Newsletter

October - December 2005 Jack & Michiko Coolbaugh

The fourth annual Thai Ministers Training Seminar held at the Bible School from November 1-9 was greatly appreciated by all of the more than 100 attendees. This year the focus was in three areas of great interest to the ministers . . . Bro. Mark Hughes (lower right) and Sis. Vicki Hodges (lower left) taught and ministered on reaching our children through Sunday School. It is exciting to see how the attendees have immediately put this teaching into practice (see the little children in the bottom photo being taught to worship by their mother!)

Following the two days of focus on Sunday School, Bro. Rodney Shaw (upper left) taught on "The minister and his personal life and his relationship to his church". This teaching was in depth, but easy to understand and all of the ministers made commitments to make changes to grow their ministries. Then Bro. Paul Urban (upper right) taught in depth on "The Gifts of the Spirit", a topic of great interest to the attendees. This was an outstanding seminar!

This past quarter we were thrilled to add another new church group some ten miles from the Bible School. These are a group of ten Hill Tribe families that left a Trinitarian group to join UPC because of disenchantment with the lack of standards in the other group. Now, through the ministry of the Bible School, our faculty and students are holding services for both adults and children to establish them in the Truth. We praise God for the opportunities He is giving for Thai people to come into salvation! And we praise God for the love our Partners have shown for the Thai people by supporting the Bible School and it's many outreach and discipleship activities!
